Do You Currently Have ROSACEA with PIMPLES?

We are conducting a clinical research study of an investigational topical medication for individuals with facial redness and pimples associated with moderate to severe rosacea.

Qualified participants will receive:

- Examinations by a board certified dermatologist**
- Study related procedures at no cost**
- Compensation of up to \$300 for time and travel**

To qualify you must:

- Be a healthy male or female, ages 18 or older**
- Be willing to make up to 6 study visits over approximately 4 months**
- Have Papulopustular Rosacea (PPR)**

Papulopustular Rosacea symptoms may include: redness and pimples on the cheeks, nose, chin and/or forehead; a tendency to flush or blush easily; visible blood vessels on the face.

Health insurance is not needed to participate.
